Kitchen Furniture 2015

New ***Kitchen Furniture*** database is a perfect solution for users of CAD Decor program, who wish to professionally, and at the same quickly and easily, design functional kitchens. We provide in it over 4500 models of kitchen cabinets, grouped into sets probably in the largest number of styles available in the market, including modern (also handle-free systems), classic, Scandinavian and English styles. In addition to the large selection of cabinets, in this special database you will also find necessary kitchen equipment, such as: sinks, built-in ovens, worktops, hoods and freestanding or built-in fridges.

Using our new ***Kitchen Furniture*** database you can create basic standard kitchen in every style in in any interior. We guarantee that it will be not mere imitation of a kitchen, but a real one - arranged in a precise and fully ergonomic way.

Browse this presentation to check what we prepared for our most demanding designers who value their time and want to provide ultimately flexible services to their clients!
